

Hernandorena

FIG TREE

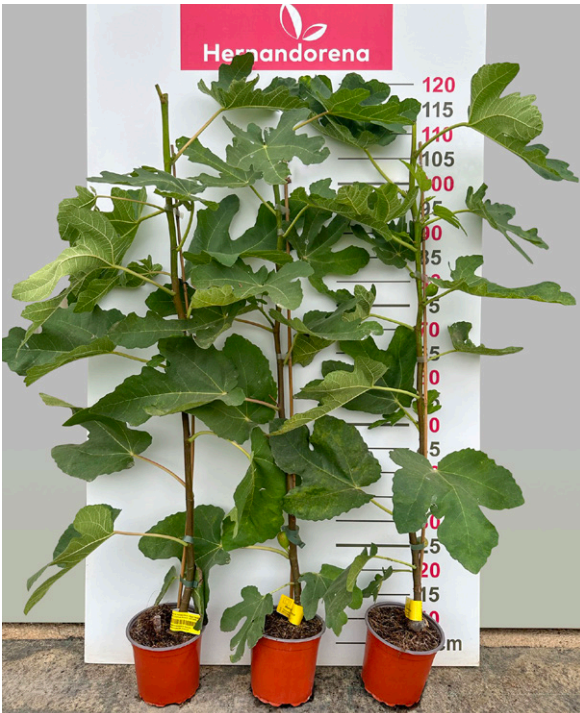

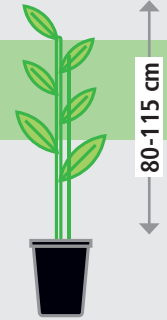

PRODUCT CHARACTERISTICS

- Field plant material from mother plant.
- **Own production.**
- Labelled plant.
- Plant passport in **EC standard quality.**
- Production time: 1 year.
- 100 cm tutor "Guided just in time" protocol.
- Commercial plant of minimum 80 cm, limited to 115 cm.

SALES FORMAT

POT PLANT
C14: 1,5 L

interior stretch marks
Slow release fertilizer
500 plants per pallet

GENERAL FEATURES

Varieties: Colar-Albacor, Toro Sentado, Cuello de Dama Negro, Cuello de Dama Blanca, Dalmatie, Nazaret, Napolitana, De Rey, Brown Turkey, San Antonio and others.

Plant material obtained from our own mother plant fields where health and varietal reliability are regularly checked by analysis.

Production: multiplication of more than 30,000 plants per year by staking.

Traceability: daily updated computerised data for tracking lots and batches.

Plant health: we prevent and control the appearance of pests and diseases through integrated control and maximum cleanliness and hygiene of the facilities.

R&D in production systems: continuous improvement in processes and protocols to achieve maximum plant homogeneity.

Delivery service: fast delivery of palletised plant. Possibility of export outside the EU.

Volume of purchase: we can handle purchases of any volume.
